Adnoc offshore medical fitness guidelines.

Accordingly, the ICV certificate will be considered by each participating entity in accordance with its policy. All suppliers are strongly encouraged to undertake an ICV evaluation and certification process to attain an ICV certification. The Murban Bab Oil Field, around 84 kilometres north west of Abu Dhabi, was the location of the first oil produced in the UAE in 1960. It extends to all aspects of our business activities, including how we engage third parties and contractors, the security practices that we enforce, and how we manufacture and deliver our products. We are rising to meet the energy needs of the fourth industrial age by embracing technology, empowering people, operating sustainably and leveraging partnerships. In the industry that we work in, the workforce faces potential health risks and occupational health hazards. We have developed robust policies to address both personal and process safety challenges. Read More ADNOC is exploring further and deeper with the help of cutting-edge technologies to find new pockets of oil and gas reserves within its shores. Explore Careers Our work continues to enable our country and our people to realize their remarkable potential, while acting as a catalyst for the growth and diversification of the UAE economy. Meet Dr. Chuwaya Al Neyadi, our Vice President of Medical Services, who continues to ensure the health and wellbeing of our employees, as they harness energy resources in the service of our nation. By striving to create a working environment that is free from occupational illness and injury, we can ensure that our employees and contractors go home safe and healthy. We are grateful to Dr. Ghuwaya, and our entire Medical Services team, for their relentless work and commitment in helping to mitigate the spread of Covid-19. We are grateful to Dr. Ali, & our Panorama team, for their commitment & dedication. We have embedded a safety culture into our everyday lives by launching ten Life-Saving Rules that keep our employees and contractors safe. Read More Around 84 kilometres north of Abu Dhabi city lies the offshore Upper Zakum oil reservoir, the second largest offshore oilfield in the world, producing 750,000 barrels per day. We are committed to building a workplace culture of zero injuries, illnesses, and incidents. As an advocate for the health and wellbeing of our employees and contractors, we host several training sessions and health education programs to ensure health awareness and minimize HSE risk. First-aid risk assessment and management; Our qualified medics effectively manage serious incidents that may occur. Learn More Learn more about life at ADNOC, and discover tips to help you stand out from the crowd. In September 2021, the Ministry of Technology and Advanced Technology (MoIAT) has announced the expansion on the program to the federal level in the UAE, therefore, the ICV certification process will be governed by MoIAT. This shall increase the potential business opportunities for the private sector entities as well as further strengthen an efficient platform for local value add generation. We identify potential health risks across our operating sites beforehand so that our employees can enjoy a healthy work environment. It was his wisdom and strength of character that formed the bedrock of our philosophy, energizing us to create a better tomorrow. The mighty field has been a prolific producer of crude ever since, but it's time for a fresh upgrade. Read More When the late Sheikh Zayed bin Sultan Al Nahyan founded ADNOC in 1971, he entrusted us with the unique responsibility to harness the UAE's natural resources effectively in the service of our nation. Since late 2019, the program has expanded to cover different governmental and semi-governmental entities. Strategic partners ADNOC and Borealis announce their intention to float a 10% minority stake in Borouge on ADX. These principles are based on international best practices and help prevent injuries, protect the lives of our employees, and safeguard damage to our assets. Could you be the difference? Our Code of Conduct outlines the legal and ethical standards that we expect from each of our employees, partners and suppliers. Meet Maryam Al Zaafl, one of our Operations Engineers on Zirku Island, who helps us to maintain a continuous and reliable supply of energy for our clients across the UAE and throughout the world. We are grateful to Maryam, and our entire Zirku team, for their commitment and dedication. Download PDF If you want to do business with ADNOC, please refer to our ADNOC Group Supplier and Partner Code of Business Ethics here. As the Middle East's largest national drilling company by rig fleet size, and the region's first provider of Integrated Drilling Services, we serve as a crucial link in the upstream value chain, enabling ADNOC to increase oil production to 5 million barrels per day by 2030, and achieve gas self-sufficiency for the UAE. The In-Country Value program consists of two parts, which are ICV certification and ICV Implementation. Further standards and specifications are in progress. Read More ADNOC is currently unlocking potential unconventional gas resources as part of its integrated gas strategy so that the UAE will become gas self-sufficient by 2030. At ADNOC, the lives of our employees and contractors are paramount to our optimal business performance. Learn More Borouge UAE Public Offering For almost 50 years, ADNOC Drilling has been enabling ADNOC to unlock the UAE's oil and gas resources in the service of the nation. The ICV certification part is under the mandate of the Ministry of Technology and Advanced Technology (MoIAT) and is unified and aligned between all ICV participating entities. The unified ICV certificate will be considered by all the participating entities. To date, 41 engineering standards and specifications have been standardized, relating to civils, structural steel, mechanical, electrical, instrumentation, process, piping and valves, pipelines and other products and disciplines. Therefore, Suppliers are only required to issue one ICV certificate per legal entity that shall be used by all participating entities. The ICV implementation will be unique at each entity level. Fit for role management: Our health observation program includes medical examinations and screening that are conducted at pre-employment stages and regularly throughout the employment contract. This will allow UAE-based manufacturers to better direct their production capability, capacity and investments to ADNOC's specific product requirements. ADNOC encourages you to review and monitor our standardized engineering standards and specifications in the below list. Read More Suppliers are expected to complete the Certification Submission Template and approach one of the empanelled certifying bodies who are authorized to issue ICV certificates. Suppliers can download the ICV certification template and refer to Supplier Submission guidelines for assistance in completing the submission documents which are available in ICV Submission Template and Guidelines. 10 Life-Saving Rules Work with a valid permit when required - Obtain authorization before entering a confined space Verify isolation and zero energy before work begins Obtain authorization before overriding or disabling safety controls Protect yourself against a fall when working at height Plan lifting operations and control the area Follow the rules for working in toxic gas environments Follow safe driving rules Keep yourself and others out of the line of fire Control flammables and ignition sources 8.1.4 Any material which, by intent or otherwise, harasses, harms, degrades, dishonours, discredits or intimidates the recipient on the basis of (without limitation) religion, gender, race, ethnicity, age, or disability; ADNOC Offshore is responsible for the development and delivery of oil and gas resources in Abu Dhabi waters. May 24, 2022 Apr 26, 2022 Apr 23, 2022 Apr 12, 2022 Mar 29, 2022 Mar 28, 2022 Mar 21, 2022 Mar 17, 2022 Mar 03, 2022 Feb 23, 2022 The Crude Flexibility Project will significantly enhance the processing capabilities of ADNOC's refinery in Ruwais. It represents the way each participating entity will use the certificate in its business activities. Learn More INCREASING POTENTIAL OPPORTUNITIES FOR UAE BASED MANUFACTURING ADNOC is working on the standardization of engineering standards and specifications across ADNOC Group Companies with the objective of decreasing the variability of the products procured by ADNOC. Occupational health reporting: We keep track of any health issues our employees may have during the course of their employment. The evaluation will examine your value-added contribution to the UAE in areas including: Local manufacturing Procurement of third party goods and services Local investment and it is Growth Emiratization of workforce Expatriate contribution Generation of income from outside UAE The certification will verify the contribution in these areas. Meet Dr. Ali Al Shehhi from our digital team, who oversees real-time data monitoring to help realize further efficiencies & unlock greater value for our business. Read More This US\$ 600 million (AED 2.2 BN) project will revolutionize power and water generation at our General Utilities Plant in Ruwais. The list of the authorized Certifying Bodies is available in ICV Certifying Bodies List. We adopt a proactive and adaptive marketing model and are developing new trading capabilities to better meet the growing demand for oil, gas and refined products around the world. We have increased accountability in our workplace while recognizing safe and good behavior across our operations. Read More World's largest offshore sour gas development Read More This is where it all began. In addition, standardizing should lead to consolidated demand from ADNOC for products, which offers opportunities for greater economies of scale for UAE based manufacturers. The ADNOC Occupational Health Framework equips us to continuously monitor the working conditions of our employees through the following elements: Health risk management and control: We have identified and established an inventory of all potential and current occupational health hazards, assessed the associated health risks, and implemented effective control measures to eliminate or minimize potential health risks. The In-Country Value (ICV) program has been pioneered by ADNOC and implemented in ADNOC group of companies since the beginning of 2018, offering suppliers new opportunities to conduct business with ADNOC Group.
